The straight-wire concept.

The Straight Wire Concept "The straight wire concept is not a product of serendipity, but is a poetry in design. It is an appliance fully programmed to combine simplicity and effectiveness required for the road to success" The genesis of the straight wire appliance was not a result of a single stray discovery, but rather the result of numerous experiments.

BASIC ORTHODONTICS

The magnetic field lines of a straight current-carrying wire form concentric circles around the wire. The direction of the magnetic field (blue arrows) is given by the right-hand rule: When the thumb of the right hand points in the direction of the conventional current, the fingers curl around the wire in the direction of the magnetic field.
